

The Window to the World

Panorama windows and doors represent the latest state of the art in product concept, design, technology, and quality.

Panorama is manufacturing and marketing high quality Aluminium and uPVC windows and doors manufactured at its latest state of the art factory in Sohar, Sultanate of Oman. The factory started production in April 2009 and has a capacity of producing 100,000 window and door elements per year.

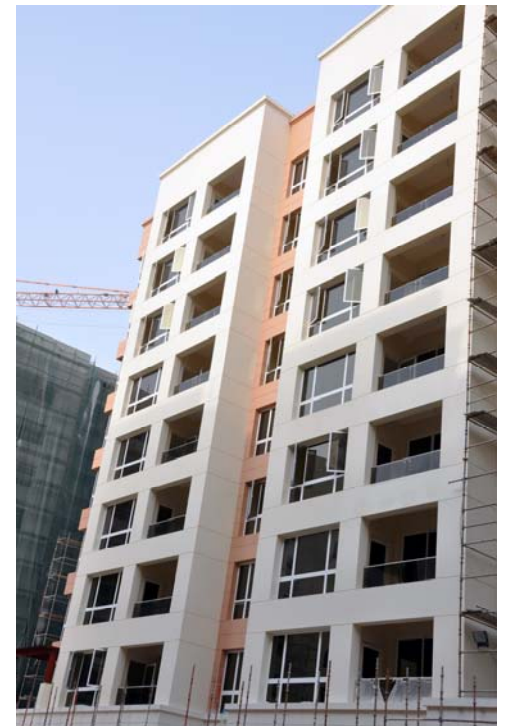

Panorama has innovative solutions for stylish design, functionality, technology, and long-term performance of Windows and Doors under severe conditions.

Panorama elements are made from materials which can be recycled and will not harm the environment.

Company Policy:

Panorama:

- strive to be the customer's first choice,
- focus on customer requirements and provide excellent products and services at best value,
- do not compromise on standards and quality,
- employ high performance staff who can achieve excellence in sales, manufacturing and services,
- has high priority to health, safety, and environmental issues related to operation and staff.

Aluminium Elements

Panorama specialises in the fabrication and installation of Aluminium Window and Door Systems, Curtain Walls, Structural Glazing, Aluminium Cladding, and Sky Lights.

The elements are made with high quality Aluminium profiles and fittings as specified by consultants, architects or clients.

Elements are tailor made according to customer requirements, design, quality preferences, and budget.

Panorama has a wide range of quality solutions ranging from the highest standard high security elements with thermal brake to lower priced solutions for budget constraint projects. The elements are available in a wide choice of colours and finishes.

Installation

The Service Technicians have more than average experience in installing windows. Panorama has a healthy balance of young and experienced fitters. The installation teams are supervised to ensure correct high quality installation. The installation team are trained regularly to ensure continued high quality of installation.

Product Guarantee

Panorama provides:

- 10 years warranty on Aluminium profiles and panels
- 10 years warranty on all products against product defects caused by Panorama
